Introduction

Passionate Software Developer with over 2 years of academic experience in creating high-quality applications. Eager to apply and expand my skills in a professional environment.

Education

Bachelor's Degree in Systems Analysis and Development

Claretiano (Brazil) | Feb 2022 – Present

- Focus Areas: Computer Networks, Web/Mobile/Commercial Programming, Database Management, Software Development.

Professional Experience

.NET Developer

Programador.TV | Jul 2024– Present

- Refactored and optimized production code, resulting in an increased performance.
- Developed and implemented unit tests, improving code coverage.
- Collaborated with cross-functional teams to address and resolve critical warnings and errors, ensuring seamless deployment of applications.

Selected Projects

Art Gallery API

An ASP.NET Core Web REST API that integrates PostgreSQL for database management, utilizes JSON Web Tokens (JWT) for secure authentication, leverages Redis for caching, and incorporates Blazor for interactive web UI development.
